
Table of Contents

Núñez-Trujillo Garoé, Cabrera R., Burgos-Reyes R. Lisbel, Da Silva Evelyn, Giménez Cristina, Cosoveanu Andreea, Brito Nélida - Endophytic fungi from <i>Vitis vinifera</i> L. isolated in Canary Islands and Azores as potential biocontrol agents of <i>Botrytis cinerea</i> Pers.:Fr.	1
Bartha Sz. - Research regarding the frequency of appearance of root-swelling at Turkey oak trees (<i>Quercus cerris</i>) from Bobostea forest (Bihor county)	7
Alexe Constanta, Vintila M., Lamureanu Gh., Doltu Madalina - Researches concerning the physiological and biochemical modifications of the gerbera flowers during storage	10
Alexe Constanta, Vintila M., Tanasa Verónica, Popescu Simona, Dumitru Liana-Melania, Lamureanu Gh. - The effect of the fertilization on biochemical composition of some nectarines fruits varieties	17
Ambarus Silvica, Brezeanu P.M., Brezeanu Creola - Studies on Genetic Structure Variability at 'Serata', <i>Lactuca sativa</i> L. Variety	22
Fabian Claudia - Landscape policies – The incontestable elements of a territory development	25
Baciu Anca, Motica R., Mike Luiza - Gared variety - result of potato breeding research at Station for Research and Development of Potato Targu Secuiesc	29
Baciu Anca, Motica R., Mike Luiza, Cioloca Mihaela - Results concerning the behaviour of certain potato varieties (<i>Solanum tuberosum</i> L.) suitable for industrial processing under various ecological conditions	33
Băla Maria, Toța Cristina Elena, Berar C., Silivășan M., Florișteanu Alexandra - Landscape planning proposal for the roundabout Cardinal Points with ornamental plants suitable for traffic	40
Băla Maria, Toța Cristina Elena, Berar C., Silivășan M. - Research on the behavior of some Rose cultivars belonging to <i>Thea hybrida</i> and <i>Polyantha</i> group, regarding the propagation through cuttings on different soil substratum at the Didactic Base of the Discipline of Floriculture	47
Balaj I., Nedelea G., Badea Elena Marcela - Effects of applying EU legislation on cultivation of transgenic herbicide-resistant soybean in Romania	52
Balaj I., Nedelea G., Badea Elena Marcela - Assessing the environmental impact of changes in pesticide use on transgenic soybean	57
Bolboacă Veronica Grigoreta, Maxim A., Măniuțiu D.N., Gocan Tincuța, Balcău Simina, Bărbuță Iulia - Preservation strategies of local varieties of crop plants in Europe and worldwide	64
Bonciu Elena - Cytological effects induced by Agil herbicide to onion	68

Camen D., Șumălan R., Beinșan Carmen, Viliga F., Bigyilan Laura, Yvin J.C. - Researches regarding the influence of fertilization on the main physiological indexes of cucumber	73
Ciulca S., Ciulca Adriana, Madosa E., Velicevici Giancarla - Genetic analysis for plant yield in winter wheat	78
Ciulca S., Ciulca Adriana, Madosa E., Velicevici Giancarla - Diallel analysis of variance - covariance regression for spike length in six-row winter barley	82
Cosoveanu Andreea, Da Silva, Evelin, Gimenez Mariño, Cristina, Núñez Trujillo, Garoe, González-Coloma, Azucena, Frias Viera I., Cabrera, R. - <i>Artemisia thuscula</i> Cav.: antibacterial, antifungal activity of the plant extracts and associated endophytes	87
Lazăr A., Petolescu Cerasela - Experimental results concerning the effect of sucrose concentration on cell biomass and synthesized anthocyanin amount in the callus culture	91
Lazăr A., Petolescu Cerasela - Experimental results concerning the effect of photoperiod and callus culture duration on anthocyanin synthesis	100
Poșta Daniela Sabina - Impact of biostimulators and of rooting substratum on sapling growth in <i>Ficus carica</i> L.	105
Poșta Daniela Sabina, Hernea Cornelia - Research concerning the production of planting material using generative propagation on <i>Cercis siliquastrum</i> L.	111
Savii G., Nedelea G. - Estimation of interrelationships among different yield traits in winter wheat	115
Savii G., Nedelea G. - Analysis of phenotypic diversity in winter wheat for some yield traits	119
Grada F., Ciulca S. - Evaluation of grain yield stability for some maize hybrids using regression analysis	123
Grada F., Ciulca S. - Variability analysis of grain yield in some maize hybrids	127
Brezeanu Creola - Identification and Study of Useful Germplasm Resources for Breeding at Climbing Bean	131
Berar C., Silivăsan M., Fora C.G., Toț a Cristina - Researches concerning landscape planning of a cemetery in the City of Timisoara	136
Berar C., Silivăsan M., Băla Maria, Fora C.G. - Study regarding landscape planning of a private garden pension from Periam commune, Timis County	143
Decuseara Carmen, Nedelea G. - The effect of genotype and water stress on root growth in some alfalfa varieties	149
Decuseara Carmen, Nedelea G. - The effect of genotype and water stress on germination ability of seeds in some alfalfa varieties	153
Dragomir P.I., Lăzureanu A. - Studies regarding the survival percentage of seedling in Uivar, Vermeș- Izgar and Luncavița- Verendin amelioration perimeters	157
Dragomir P.I., Lăzureanu A. - Studies regarding the height of seedling from Uivar, Vermeș- Izgar and Luncavița- Verendin amelioration perimeters	160

Drăghicioiu P., Berar V. - Researches concerning the interaction genotype x technological factors over some production characters at one assortment of lettuce cultivated in field conditions	166
Fora, C.G., Lauer, K.F., Berar, C., Ștefan, C., Silivășan, M., Lalescu, D. - Predators of <i>Pityogenes chalcographus</i> (Coleoptera: Scolytidae) in Natural Park Apuseni	171
Fora, C.G., Lauer, K.F., Banu, C., Berar, C. - Parasitoids of <i>Ips typographus</i> (Coleoptera: Scolytidae) in the Natural Park Apuseni	174
Becherescu Alexandra, Horgoș A., , Popa D., Ienciu Anișoara, Drăgunescu Anca, Stepan I. - Manifestation of the productive potential of early cabbage hybrids grown in unheated greenhouses under the influence of start and phase root fertigation with modern fully soluble chemical fertilizers	177
Horgoș A., Becherescu Alexandra, Popa D., Drăgunescu Anca, Ienciu Anișoara, Neag T. - Increasing productive efficiency of a culture of mushroom <i>Agaricus bisporus</i> as a result of improvement of technological links for nutrient substrate cultivation and plant protection	184
Lamureanu Gh., Caplan I., Moale Cristina, Oprita.V.A., Alexe Constanța - The evolution of the growth and fructification stages of clingstones in the conditions of south-eastern Romania	192
Madoșă E., Velicevici Giancarla, Vasilescu Nora, Avadanei C., Ciulca S., Bîtea Nicoleta - Studies regarding the resistance to fall of winter oat genotypes	198
Popescu Sorina, Ioja-Boldura Oana Maria - Evaluation of the genetically modified corn resistance to fungal infection	202
Ioja-Boldura Oana Maria, Popescu Sorina - <i>Fusarium</i> strain identification in complex feeds from Romanian market	207
Tănase Maria, Sand Camelia - Aspects regarding the physiology of cuscuta (<i>Cuscuta L. Convolvulaceae</i>)	212
Tanase Maria, Sand Camelia, Gheorghe Maria, Moise Cristina, Stanciu Mirela, Antonie Iuliana - Research on the spreading of cuscuta in South-East Transylvania – Romania	216
Tudor Radu C.M. - Establishment of in vitro multiplication biotechnology of the species <i>Albizzia lebeck</i> L.	220
Tudor Radu C.M. - Assessment of genetic stability of plants obtained in vitro from <i>Albizzia lebeck</i> and <i>Albizzia julibrissin</i> using RAPD markers	225
Danci M., Danci Oana, Mike Luiza, Baci Anca, Olaru Daniela, Petolescu Cerasela, Berbentea F., David I. - Production of virus free potato plantlets	232
Velicevici Giancarla, Madosă E., Șumălan R., Ciulca Adriana, Petolescu Cerasela - Evaluation of some indirect indices to identify drought tolerance in barley	239
Velicevici Giancarla, Sumalan R., Madosa E., Ciulca Elena Adriana, Bitea Nicoleta, Malaescu Mihaela - Influence of Hydric Deficit on Root Growth Dynamics in Some Genotypes of Barley (<i>Hordeum Vulgare</i>)	242
Blidariu C., Dobrei A. - Researches concerning pollen's germination of some grape vine varieties in conditions of D.S. Timisoara	248

Blidariu C., Sala F. - Influence of organic and mineral fertilization on sugar content in Italian Riesling grape variety	251
Bîtea Nicoleta - Daniela, Madoşa, E. - Research concerning the variability of the flowers morphological features of some orchid species from Anina Mountains	255
Matei Traian Gabriel, Madjar R., Gala R.A., Dinca L. - The influence of the planting system on dry matter accumulation in leaves and shoots of some varieties of peach tree (<i>Prunus persica</i> L.)	259
Fironda (Casapu) Mihaela, Băla Maria - Behavior of some <i>Pelargonium</i> genera treated with Cycogan concerning the growth and inflorescence of different cultivation sublayers	264
Doltu Madalina, Alexe Constanta, Lamureanu Gh., Sora D. - Comparative studies on some late ripening pear hybrids	267
Doltu Madalina, Alexe Constanta, Lamureanu Gh., Vintila M., Sora D. - Results concerning the preservation of carnations in refrigeration storage conditions	272
Gherghişan Ecaterina - Research on the phenology of certain herbaceous species in Macin Mountains National Park	278
Văduva (Grecu) Cornelia, Stănescu D., Borlea F. - Measures for sustainable management of types ecosystems from suburban areas of Timisoara	285
David I., Berbentea F., Danci M., Bujancă G., Georgescu L. - The monitoring of enzyme activity of amylase on the bread dough	292
Jalubă Iuliana, Mutu Mirela - Space method for predicting pH based on flora samples	298
