Bărăscu R., D. Hoza - Preliminary data regarding the influence of grafting combination on the growth of the graft for the Pinova apple variety	1
Ciardi M., Longo V., Caltavuturo L., and Stefania Frassinetti - Assessment of antioxidant activity of Batavia lettuce and rocket from conventional and mycorrhized farming	4
Pekeč S., Orlović S., Katanić Marina, Stojanović D., Stojnić S. - Water air and hydrological properties of humogley in protected part of alluvial plain	13
K. M. Prabhukumar, V. P. Thomas, *M. Sabu, A. V. Prasanth and K. V. Mohanan - Induced mutation in ornamental gingers (Zingiberaceae) using chemical mutagens viz. Colchicine, Acridine and Ethylmethanesulphonate	18
Poșta Gh., Balint M. - Research regarding the interaction genotype x technological factors in morphological features of chilli pepper cultivated in solaria at the Experimental Station of Timisoara, Romania	28
Tomescu D., Sumalan R., Soran Loredana³, Copolovici L. - The influence of soil salinity to chlorophylls and β -carotene contents in <i>Lycopersicon esculentum</i> Mill.	35
Mike Gabriella - Researches regarding the adaptability for processing of potato variety in the form of chips	39
Căprariu A. D. , Apahidean Maria And Apahidean A. I. - Researches concerning the influence of plant density, cultivars and sowing time on onion plants growth (<i>Allium cepa</i> L.)	46
Motica R., Baciú Anca, Nemes Zsuzsanna, Mike Luiza - Results concerning the influence of storage conditions on the physiological degeneration and production potential of seed potatoes	50
Poșta Daniela Sabina - Research on the Use of Seed Preparation Methods for the Generative Production of Seedlings in the Species <i>Evodia danielii</i> (Benn.) Hemsl.	54
Copaci Cristina-Mirela, Pocol Ioana-Gabriela, Căprar M. , Sicora C. - Evaluating the potential of a few barcode markers in identifying the species <i>Calluna vulgaris</i> (L.) Hull	57
Doltu Mădălina, Sora D., Bogoescu M. - Results concerning extension of culture period at zinnias obtained in pot	62
Tărășescu Florina , Burnaz R. - Research on the influence of crown shapes on growth and fruiting of apple cultivars in the superintensive system	66
Lazăr Andreea M., Baciú A.A. - Growth and fructification characteristic at apple hybrids with columnar port, resulted from various combinations and mutations, as compared to standard descendants	71
Moisă R., Berar V. - Study of the effect of several natural fertilizers on the seedlings	77

leaf area for some tomato cultivars

- Moisă R., Berar V.** - Researches regarding the growth of tomato seedlings under different treatments with natural fertilizers 82
- Singureanu V., Sestraş R., Moldovan G., Ungur Rodica, Onac I., Singureanu Victoria** - Medicinal plants propagation development on pilot substratum observed with open source cad software's 87
- Velicevici Giancarla, Madosa E., Ciulca Adriana, Petolescu Cerasela, Camen D., Cretescu Iuliana, Malaescu Mihaela, Oproi E.** - Genetic analysis of proline content in some barley (*Hordeum vulgare*) genotypes 93
- Velicevici Giancarla, Madosa E., Ciulca Adriana, Petolescu Cerasela, Camen D., Cretescu Iuliana, Malaescu Mihaela, Oproi E.** - Influence of NaCl concentration on the roots growth in some wheat (*Triticum aestivum* L.) cultivars under laboratory conditions 100
- Crăciun (Nan) Cristina, Băla Maria** - Research concerning the effect of some growth stimulators on the plants height of certain *Lisianthus* varieties 103
- Crăciun (Nan) Cristina, Băla Maria** - Study of the dynamics of *Lisianthus* plant growth during the growing period 108
- Hegheduş-Mîndru Ramona Cristina** - The content in macroelements (Na, K, Ca and Mg) of some vegetables collected from Rachita locality, Timis County 113
- Hegheduş- Mîndru Ramona Cristina, Hegheduş- Mîndru G., Negrea P., Şumălan R.L., Ştef D.S.** - The content in macroelements (Na, K, Ca and Mg) of some fruits collected from Rachita locality, Timis County 119
- Balint M., Poşta Gh.** - Research on the interaction genotype x technological factors in some morphological features in Macău onion bulbs cultivated in the vegetable basin Belinţ (Romania) 125
- Merce O., Biriş I. A., Turcu D. O., Cântar I. C., Cadar N.** - Specific management measures for the forest habitats 91Q0 – Calcicolous *Pinus sylvestris* forests and 9530* - Sub-Mediterranean forest with endemic *Pinus nigra* ssp. *banatica* 136
- Merce O.** - Characteristics of the seedlings layer from the “Runcu - Groşi” Nature Reserve 140
- Miron M.S., Sumalan R. L.** - Physiological responses of Norway spruce (*Picea abies* [L.] Karst) seedlings to drought and overheating stress conditions 146
- Bere Semeredi A. A., Berar V.** - Researches concerning the yield traits variability of some paprika cultivars 152
- Bere Semeredi A. A., Berar V.** - Assessment of the phenotypic diversity between some paprika cultivars for yield traits 157
- Moatăr Mihaela, Ştefan Carolina, Fora C., Banu C., Stanciu S.** - The typological analysis of the forest and diversity of indicator flora in Unit of Production V Luncani - Stâlpu 162
- Herbei M.V., Sala F.** - Characterization of the arboreal vegetation from Dendrological Park Bazoş, Romania, based on satellite images 166
